EAST HARLEM CHURCH

ACTS Reading Plan

Extraordinary through the Ordinary: A Study of Acts: The book of Acts is marked by extraordinary events. The NT church is birthed and explodes across the world. There are miracles, and lives transformed. The world would never be the same. Yet, though Acts is marked by extraordinary events, God saw it fit to accomplish great feats through ordinary people. The world was transformed by the extraordinary in the ordinary. As was the case then, God will accomplish the extraordinary through our ordinary willingness to follow as he leads that we might too, be a people who turn the world upside down (Acts 17:6).

The following reading plan anticipates reading through the book of Acts twice over the course of the series. Approach the first time reading through it as a way of immersing yourself into the story of the early church. On the second reading, consider your reading in light of how we approach the series, namely, anticipating how God will bring the extraordinary through the ordinary in you.
